Les trois brigands, circa 1960

Army of Shovels, 2018

In his childhood, Tomi is French at home, German on the way to school, Alsatian on the streets of Strasbourg... Hating borders, he is French, American, Canadian, Irish... He is borderless, unashamed, ready to take on anything! At the age of 25, he sets off for the new world: \$60 in his pocket, New York, a stateless person like so many others... Free, funny, and cheeky, Tomi Ungerer seduces the press, magazines, New York, Vogue, Life, Fortune. The young Frenchman's drawings are "trendy"!

With *Three Robbers*, a *Jean* and a *Moon*, we forget the chain orgasms, American-style sex, and fucking machines. Tomi Ungerer makes the hairs on the back of good consciences stand up. Author, cartoonist, and illustrator, he has produced nearly 40,000 drawings, advertisements, toys, and posters that have traveled the world. Tomi's pen vacillates between the worlds of children and adults, between heroes for the young and Eros for the not-so-young...

Tomi Ungerer observes, records, surprises, and challenges the gaze. Described as an agent provocateur, he is a jack-of-all-trades: from schoolyards to New York high society, from politics to the erotic, Tomi Ungerer's work is a story: a story of life, living through stories. He is also known for his sly air, his fierce and sexy humor, and his subversive side. He transforms everyday life with his noisy drawings and his images that speak. Drawing endlessly until you wonder what to do when your sight is gone? Playing with modeling clay or masturbating, he said.
